Our Product

Service

### We are your trusted lighting partner.

With deep expertise and personal service, we deliver efficient LED lighting solutions for industrial and commercial spaces, as well as crafting luminaires for office environments. We tailor every solution to meet the unique needs of each project – ensuring the right light for every space.

#### Lighting for All Interior Spaces

We create flexible, high-efficiency lighting solutions for supermarkets, retail stores, homes, hotels, and public spaces, tailored to every unique project need.

#### Smooth and Elegant Linear Lighting

Our architectural linear luminaires integrate smooth lines, modern interiors, enhancing workspaces, showrooms, educational spaces, galleries, and creative environments.

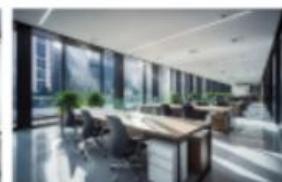

#### Flexible Modular Tracking Systems

Our modular tracking system offers quick installation and offers great creative freedom, delivering powerful, integrated lighting across various indoor settings.

#### Premium Custom Office Pendant Luminaires

We supply high-quality, glass-free pendant lighting, supporting flat or direct, continuous, and logo or designs with flexible configuration systems and durable, refined materials.

#### Versatile and Durable Efficient LED Series

Our LED series offer flexible, elegant accent lighting for residential and commercial interiors, tailoring every environment with long-term energy-saving performance.

### About Lumolux

At Lumolux, we believe that light is more than just technology – it's the heart of every space. With over ten years of experience in the lighting industry, our team is dedicated to unlocking the full potential of LED technology, always aiming to create solutions that improve everyday spaces.

We've established a sales center and warehouse in Poland, where tradition meets innovation. From this base, our team collaborates closely with local experts to understand the unique needs of each European market, focusing on providing lighting solutions that are both sustainable and energy-efficient, and create lighting for a greener future.

All of our products are designed with care to ensure they fit into your space. Each solution is tailored to your needs, considering practicality with thoughtful design.

Our strength lies in our strong network of trusted production partners, ensuring the highest quality standards at every stage. Together, we create lighting that architects, designers, and contractors can rely on. Every light we produce reflects our commitment to not only illuminate your space but also promote sustainability and energy efficiency through eco-friendly packaging and energy-saving insights.
